FROM: Ernest L. Perry, Executive Director
DATE: April 23, 1984
SUBJECT: MINOR AMENDMENT TO THE PORT OF LOS ANGELES CERTIFIED PORT MASTER PLAN

RECOMMENDATION:

It is recommended that the Honorable Board of Harbor Commissioners:

1. Amend the certified Port of Los Angeles Master Plan to add parcel A to Master Planning Area 2, parcels B, C, and D to Area 5 and parcel E to Area 6 as shown on the transmitted parcel location map.

2. Direct staff to request the Executive Director of the California Coastal Commission to designate the amendment as being minor in nature pursuant to Public Resources Code 30716(b).

DISCUSSION:

1. Section 30710 of the California Coastal Act requires that the Coastal Commission adopt maps delineating the jurisdictional boundaries of the four major port areas within the coastal zone. Since that adoption by the Commission on April 6, 1977, the Port of Los Angeles has acquired additional property, which, pursuant to the Los Angeles City Charter, automatically transfers jurisdiction for such property to the Port of Los Angeles.

2. A map revision to reflect the changes in port jurisdiction since the original jurisdiction map was prepared was approved by the Coastal Commission on March 30, 1984.

3. In revising the port's jurisdictional boundaries, it was recognized that five parcels of land were not covered under the certified Port Master Plan and would require a plan amendment to transfer coastal permit authority to the Board of Harbor Commissioners. Until the amendment is certified, permit authority will remain with the Coastal Commission.

4. The location of the five parcels have been identified on the transmitted parcel location map. The amendment adds parcel A to Master Planning Area 2, parcels B, C, and D to Area 5, and, parcel E to Area 6.

TRANSMITTAL:
Parcel location map.

APPROVED:
