AMENDMENT 2

BHC Recommendation: Add Commercial Fishing Industry Plan
CCC Action: Approved June 5, 1981 with conditions
- Delete removal of commercial fishing facilities on parcels 1 & 3.
- Add marine research use.
- Conduct inventory of commercial fishing support facilities.

BHC approved CCC conditions February 17, 1982.

AMENDMENT 3

CCC Action: Approved November 15, 1983

AMENDMENT 4

BHC Recommendation: Approved revisions to Guidelines for Implementation of the Port of Los Angeles Certified Port Master Plan.
CCC Action: Approved minor amendment effective August 11, 1982.

AMENDMENT 6

BHC Recommendation: Approved adding "coastal dependent or related industrial" uses to those permitted on the 190-acre landfill. Subsequent Board resolution revised original amendment to restrict subject uses to western 100 acres of landfill.
CCC Action: Approved June 27, 1983, with condition that mitigation monies be conveyed to appropriate agency. Board approved conditioned approval on October 19, 1983.

AMENDMENT 7

BHC Recommendation: Approved reincorporating Terminal Way parcel in Planning Area 8 and adding "general cargo" as a permitted use.
AMENDMENT 8

BHC Recommendation: Add 5 parcels to existing PMP area.
CCC Action: Approved as minor amendment effective June 27, 1984.

AMENDMENT 9

BHC Recommendation: Approved proposal to fill Slip 228 for container handling activities.

AMENDMENT 10

BHC Recommendation: Add "general cargo" to those uses permitted in the Terminal Way parcel.

AMENDMENT 12

BHC Recommendation: Add "Dry Bulk and General Cargo" to those uses permitted on 22 acre parcel in southeastern portion of Area 8, add "General Cargo and Other" land use designations on Pier 300 and allow for the development of 395 acres of Pier 400 landfill and access corridor in Area 9. Also provides for deep draft channels to serve Piers 300/400 ranging in depth from -45 to -81 feet and 136 acres of shallow water habitat along breakwater. Land uses on Pier 400 include "Liquid Bulk, General Cargo and Other".
Effective Date: July 15, 1993

AMENDMENT 13

BHC Recommendations: Allow for creation of 1.4 acre landfill immediately behind the easterly most container berth on Pier 300. Amendment would also allow for the creation of 2.8 acres of shallow water habitat along the San Pedro Breakwater as mitigation for the fill.
CCC Action: On June 30, 1994, Executive Director determined amendment to be minor in nature.
Effective Date: July 15, 1994

AMENDMENT 14

BHC Recommendations: Adds general cargo as a permitted use on a 10 acre parcel in Fish Harbor.
Effective Date: November, 1995
AMENDMENT 15

**BHC Recommendation:** Establish harbor landfill mitigation account through acquisition and restoration of the Bolsa Chica Lowlands. September 13, 1995.

**CCC Action:** Certified amendment on October 8, 1996.

**Effective Date:** November 12, 1996

AMENDMENT 16

**BHC Recommendation:** Adds “community building” as a permitted port-related commercial use on the 1.4-acre site at the head of Slip 5. July 31, 1996.

**CCC Action:** Executive Director determined this to be a minor amendment on October 17, 1996.

**Effective Date:** November 1, 1996

AMENDMENT 17

**BHC Recommendation:** Provides for the development of the balance of Pier 400, including 218 acres of fill, deep draft channels, additional shallow water habitat and an additional 40 credits to the Port’s landfill mitigation account for an additional $6 million towards the Bolsa Chica restoration project. February 26, 1997.

**CCC Action:** Certified amendment on April 8, 1997.

**Effective Date:** July 9, 1997

AMENDMENT 19

**BHC Recommendation:** Provides for the deepening of the Main Channel, Inner Harbor Turning Basin, West Basin, East Basin and East Basin Channel to -50 feet MLLW. Also provides for creation and use of borrow pits in the outer harbor. March 11, 1998.

**CCC Action:** Certified amendment on May 20, 1998.

**Effective Date:** August 13, 1998

AMENDMENT 21

**BHC Recommendation:** Provides for the deepening of the Main Channel, Inner Harbor Turning Basin, West Basin, East Basin, East Basin Channel, North Channel and selected container berths from the current -45 feet MLLW depth to -53 feet. February 13, 2002.

**CCC Action:** Certified amendment on May 7, 2002.

**Effective Date:** June 11, 2002
