## **Explanation for Reposting of POLA/POLB CTP Solicitation #1 Ranked List**

This ranked list for CTP Solicitation #1 represents an update to the original list that was posted on 10/15/08. It has been updated to reflect the current status of applications. All eligible and interested applicants shown will receive Prop. 1B funding. Additional information is summarized as follows:

- The project life on this revised ranked list is determined by 8 years or 350,000 miles, whichever comes first. This is the project life that was in effect at the time CTP Solicitation #1 was conducted in August and September 2008.
- On the original ranked list posted on 10/15/08, emission calculations were incorrectly based on a project life of 8 years for all applicants. The 8 year project life overstated the emission benefits on trucks that would reach the 350,000 mile contract commitment prior to 8 years.
- In comparison to the original 10/15/08 ranked list, this revised ranked list added 2 applicants that were later found to be eligible and removed 6 applicants that were duplicated either on the original ranked list or within another local agency Prop. 1B solicitation.
- In September 2009, the California Air Resources Board directed the Ports to offer applicants the opportunity to reduce the contract duration from the previous requirement of 8 years or 350,000 miles down to 5 years or 350,000 miles. All applicants that receive funding under CTP Solicitation #1 will be offered the opportunity to amend their existing contract or execute a new contract reflecting this reduced contract term.
