DR. Ralph G. Appy, POLA
425 South Palos Verdes St.
San Pedro, Ca. (0731

The development of a major new marine terminal in the Port of Los Angeles has taken far to long to accomplish. The need in our port for a safe quick deep draft terminal is past due as our nations need for oil increases each day.

The proposed crude oil terminal project at Berth 408 should be moved along quickly to benefit our port, our nation, and the local working community.

Please assist in making the necessary adjustments to move the Pacific LA Marine Terminal LLC Crude Oil Terminal Project to a quick reality.

Respectfully,

The Rev. Arthur R. Bartlett - Former Harbor Commissioner
