APPENDIX C

Port Community Advisory Committee (PCAC)
Project Involvement
C.1 Introduction, PCAC Purpose and Goals

The Port Community Advisory Committee (PCAC) was established in 2001 as a standing committee of the Port of Los Angeles Board of Harbor Commissioners (Board). In accordance with the direction provided by Mayor Hahn, the purposes of the PCAC are to:

- Assess the impacts of Port developments on the harbor area communities and recommend suitable mitigation measures to the Board for such impacts.

- Review past, present, and future environmental documents in an open public process and make recommendations to the Board to ensure that impacts to the communities are appropriately mitigated in accordance with federal and California law.

- Provide a public forum and make recommendations to the Board to assist the Port in taking a leadership role in creating balanced communities in Wilmington, Harbor City, and San Pedro so that the quality of life is maintained and enhanced by the presence of the Port.

The PCAC provides a public forum to discuss Port-related quality of life issues through a series of subcommittees. These subcommittees provide guidance on environmental issues, review of Environmental Impact Reports (EIRs), master planning, and Port redevelopment. The specific purpose of this Appendix to the TraPac Project is to document the involvement of the PCAC in the preparation and review of this Draft EIS/EIR.

C.2 Overview of PCAC Involvement

This Appendix documents PCAC members’ involvement in the review of Berths 136-147 Terminal Project. Using the Cabrillo Way Marina Phase II EIR as a model
and working with the Berth 97-109 Container Terminal (China Shipping) EIR [Past EIR] subcommittee, a generalized approach was identified for PCAC involvement in preparation of EIRs and a template was developed to document this involvement.

PCAC also developed a number of project mitigation measures. These measures are presented in Appendix B. In addition, a list of aesthetic project mitigation measures was submitted by PCAC.

### C.3 Notice of Intent/Notice of Preparation

The NOI/NOP was completed and released for public review on October 27, 2003 and October 19, 2003, respectively. A public scoping meeting were held on November 5, 2003 at the Wilmington Recreation Center in Wilmington. Comment letters were received, including from PCAC. A Special Public Notice was released on March 7, 2006 and a public meeting was held on April 26, 2006. One letter was received from the PCAC on the Special Public Notice.

### C.4 Draft EIS/EIR Preparation

Once the Draft EIS/EIR is released, Port staff will meet with the Wilmington PCAC subcommittee to review the contents of the document in accordance with the process.
