PORT OF LOS ANGELES SEEKS COMMUNITY INPUT ON CRITICAL TRANSPORTATION ISSUES

SAN PEDRO, Calif. – In its continuous effort to garner community input, the Port of Los Angeles will hold two community workshops with both San Pedro and Wilmington community stakeholders to develop solutions for Port traffic at specific locations.

One transportation workshop is scheduled for Tuesday, October 5, at 6:30 p.m., at the Wilmington Senior Center. The topic is South Wilmington grade separations.

A second transportation workshop is scheduled for Thursday, Oct. 14, at 6 p.m., at the Los Angeles Harbor Sheraton Hotel. The topic is the I-110/SR47/Harbor Boulevard interchange project.

Both meetings are held in conjunction with regular meetings of the Port Community Advisory Committee.

“The Port of Los Angeles has embarked on a collaborative effort for transportation projects designed to ease congestion and improve air quality,” said Stacey Jones, the Port’s Director of Engineering Development. “With these workshops, residents will be able to voice their opinions to help identify project opportunities.”

For more information on Port of Los Angeles transportation improvement projects, call (310) 732-3649.
