SAN PEDRO, Calif. – Months after conducting initial discussions garnering tremendous response from the Harbor community on specific traffic issues, the Port of Los Angeles will hold community workshops in both San Pedro and Wilmington to present construction solutions for Port-area traffic, centering on connections to the I-110 (Harbor Freeway) and SR-47 (Vincent Thomas Bridge).

Both workshops will cover the same information, held in conjunction with two Port of Los Angeles Community Advisory Committee (PCAC) subcommittee meetings.

The Wilmington Waterfront Subcommittee transportation workshop is scheduled for Tuesday, April 4, at 5:30 p.m., at the Wilmington Senior Citizen's Center, located at 1371 Eubank Street in Wilmington.

The PCAC Traffic Subcommittee transportation workshop is scheduled for Thursday, April 6, at 5:30 p.m., at the Crowne Plaza Hotel, located at 601 S. Palos Verdes Street in San Pedro.

For more information, call (310) 732-3675, or visit www.portoflosangeles.org.
